Performance Evaluation 15 (1992) 219
North-Holland

Author Index Volume 15 (1992)

(The issue number is given in front of the page numbers)

Blieberger, J. and **U. Schmid**, Preemptive LCFS scheduling in hard real-time applications (3) 203–215
Blondia, C., Performance evaluation of an M/1-stage in an ATM switching element (1) 1– 20
Bondi, A.B., A study of a state-dependent job admission policy in a computer system with restricted memory partitions (3) 133–153
Boyer, J., *see* **Guillemin, F.** (3) 163–176

Chang, K.C. and **D. Sandhu**, Mean waiting time approximations in cyclic-service systems with exhaustive limited service policy (1) 21– 40

de Souza e Silva, E., TIMS XXX–SOBRAPO XXIII Joint International Meeting; Performance Evaluation Cluster (2) 115–120
Dupuis, A., *see* **Guillemin, F.** (3) 163–176

Guillemin, F., J. Boyer and **A. Dupuis**, Burstiness in broadband integrated networks (3) 163–176

Ho, Y.-C., *see* **Zhang, B.** (3) 177–194

Kant, K., MVA approximations for SJN scheduling (1) 41– 61
Kaufman, J.S., Blocking with retrials in a completely shared resource environment (2) 99–113

Nishida, T., Approximate analysis for heterogeneous multiprocessor systems with priority jobs (2) 77– 88

Ozawa, T., Analysis of a multiqueue model for an ISDN access interface (2) 65– 76

Pinsky, E., A simple approximation for the Erlang loss function (3) 155–161

Sanders, B., *see* **Wallin, J.F.E.** (3) 195–202
Sandhu, D., *see* **Chang, K.C.** (1) 21– 40
Schmid, U., *see* **Blieberger, J.** (3) 203–215

Takagi, H., International Conference on the Performance of Distributed Systems and Integrated Communication Networks (2) 121–128
Tedijanto, T.E., A note on the comparison between Bernoulli and limited policies in vacation models (2) 89– 97

Wallin, J.F.E. and **B. Sanders**, The calculation of overflow moments in loss systems with selective trunk reservation (3) 195–202

Zhang, B. and **Y.-C. Ho**, Improvements in the likelihood ratio method for steady-state sensitivity analysis and simulation (3) 177–194

Elsevier Science Publishers B.V.
